Brand New Book ***** Print on Demand *****.The object of this book is to provide the clergy and laity with a practical guide to the building and remodelling of Catholic churches, and to give a summary of the laws governing their planning and furnishing. Before an architect can design a church he must understand the functional nature of the different parts of the building. It matters very little in the long run whether he has good taste ! For as the late Eric Gill loved to remind us: unless a workman knows what he is making he cannot make anything. Whether it be a church or only a toothpick, he must know what it is; he must have it in his mind before he begins, before he can even choose his material or lay his hand on a tool. The trouble with so many churches erected during the past century is that architects have been far more concerned with the superficial beauty than with the nature of the building. Their object, so it seems, was to create a building that looked what most people believed a church ought to look like rather than a building that fulfilled the practical functions of a place of worship. They often managed to erect a building that superficially reproduced the plan and details found in houses of God in past ages, but which were an anachronism in modern times. Such architects did not know what they were making. Very often they took no trouble to learn. They wanted to create a work of art and ignored the fact that nothing can be a work of art if it does not properly fulfil its end. Peter Anson has asked me...
