Excerpt: . throughout the works, and which is rigidly insisted on. Having known these works for the last fifteen years we particularly noticed the great change in this respect, which is entirely due to the able and energetic administration of M. Sadoine. Altogether the works are exceedingly interesting, and if there are some points of detail in which lessons might be usefully taken from us, there are others again in which some of our manufacturers might profit by a visit to the Seraing forks. PUMPING ENGINES. WE have more than once had occasion to mention the pumping engines and water tower of the Erato Brllnner Maschinen-Fabriks Gesellschaft at the Vienna Exhibition. The latter we lately illustrated, and the former we illustrate this week by a double-page engraving, as well as by general views on the next page. The double-page sheet shows u. side elevation and...
