

university physics experiment tutorial

By CHEN FA TANG ZOU QIAN LIN ZHANG SU CAI XIE

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 230 Publisher : China Electric Power Press Pub. Date :2009-01. university physics experiment tutorial for the 21st century higher education planning materials. College Physics Experimental Course adhering to the multi-level, modular, modular, and interrelated, the teaching principles, the establishment of the more advanced courses teaching content and new systems. College Physics Experimental Course is divided into five chapters, including basic knowledge and experimental basis to test a hierarchical classification, based experiment two, selected experiments, integrated, design of experiments and so on. College Physics Experimental Course a more comprehensive exposition of measurement error, uncertainty, and the basics of data processing, College Physics Experimental Course covers the mechanical, thermal, optical, electromagnetic, modern physics experiment content. College Physics Experimental Course and strive to reflect the current mainstream systems theory, experiment, technology and methods, focusing on teaching content and curriculum of the hierarchical, modular combination. Combination of comprehensive experimental and design experiments, in addition of many new experiments in the experiment content, students focus on innovation and research capabilities. College Physics Experimental Course for institutions of higher learning of science and...

Reviews

This book will not be straightforward to start on studying but really fun to read. it absolutely was writtern really flawlessly and helpful. You can expect to like just how the writer write this publication.

-- **Glenna Goldner**

A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Cade Nolan**
